CAREER OBJECTIVE

Proactive and personable B.Tech (Information Technology) student with strong communication, analytical, and technology skills, seeking an entry-level Business Operations Executive role. Comfortable engaging with people, quick to learn new tools and processes, and experienced in managing academic projects end-to-end. Eager to apply these strengths to customer engagement and relationship management, lead generation, client communication and follow-ups, sales planning, negotiation, and coordination with marketing and growth teams.

KEY SKILLS

- Customer Engagement & Relationship Management
- Lead Generation Support
- Client Communication & Follow-ups
- Sales Planning & Optimization (Foundational)
- Negotiation & Sales Closure (Interpersonal)
- Coordination with Marketing & Growth Teams
- Analytical & Data-Driven Thinking
- Presentation & Pitch Preparation
- Team Coordination & Cross-functional Collaboration
- Fast Learner on New Tools & CRM Software

TOOLS & TECHNOLOGY

MySQL, SQL, VS Code, HTML, CSS, JavaScript, ChatGPT, Gemini, Gamma AI, Prompt Engineering

ACADEMIC PROJECTS

FraudShield AI — NLP-Based Fraud Detection System

Built a text-classification tool that analyzes customer messages using TF-IDF and Multinomial Naive Bayes to flag fraudulent vs. legitimate communication, with a Flask backend. Reflects strong analytical ability and comfort working with customer communication data, directly transferable to lead generation and client communication tasks.

Tic Tac Toe Game

Designed and built a browser-based game (HTML, CSS, JavaScript) covering turn logic, win/draw detection, and reset flow, demonstrating structured planning and attention to process detail.

Keyboard Event Tracker

Developed a real-time JavaScript application that captures and displays live input events, showing an ability to monitor and present data clearly, useful for tracking sales activity and client follow-ups.
